About the OAND

The Ontario Association of Naturopathic Doctors (OAND) is the professional voice for over 1,600 licensed NDs and naturopathic medical students across Ontario.

Our Pillars of Impact

- 1. Membership, Education & Policy** - We support the profession through ongoing education that fosters high standards of clinical care, policy development grounded in member needs, and a strong membership experience focused on professional growth, resources, and support. Education that supports high standards of clinical care and professional growth
- 2. Government Relations & Advocacy** - We lead advocacy efforts that champion the role of naturopathic doctors in Ontario's healthcare system—pursuing greater recognition, expanded scope, and better access for the public to naturopathic care.
- 3. Events & Community** - We build and strengthen our profession by cultivating community, connection, and collaboration—through flagship events, peer networking, and member engagement that amplifies our collective voice.
